

Web Development Fees. The Client shall pay the Developer a total amount of Eighty Thousand pesos (PHP 80,000.00). The total development fee covers only HTML and CSS programming. Back-end programming and other customization of corporate-related identities such as logo design or enhancement and copywriting shall be excluded from the development fee. An initial payment of Twenty Thousand pesos (PHP 20,000.00) shall be made before the submission of the mock-up. After the approval of the mockup, the Client shall pay the Developer Forty Thousand pesos (PHP 40,000.00). The final payment of Twenty Thousand pesos (PHP 20,000.00) shall be made after the website will become live online.

Schedule. The project shall commence once the initial payment is made by the Client to the Developer. The entire web development shall take six (6) weeks to complete. The following is the weekly activity and output for the entire web development project:

1. Week 01 (25-31 Mar 2023) – Design and Layout (Mock-up UI of the home and one inner page)
2. Week 02 (01-07 Apr 2023) – Approval of the Mock-up (Final UI)
3. Week 03 (08-14 Apr 2023) – Front-end Development (Initial Prototype)
4. Week 04 (15-21 Apr 2023) – Prototype Testing and Review (Online Prototype)
5. Week 05 (22-28 Apr 2023) – Revision and Troubleshooting (Final Website)
6. Week 06 (29 Apr-05 May 2023) – Website Deployment (Live Website)

The schedule provided above is an estimate and is subject to modification. The Client shall agree to approve mockups, designs, and layouts in a timely manner to potentially reduce the timeline indicated above. Additionally, initial prototype testing and review will be conducted to allow for the deployment of an initial website by April 10.

The Developer is required to communicate any queries via phone call or email to the designated contact person listed below:

IT team email: it.support@geospectrum.com.ph
